

Peyton Cornelison

SOFTWARE ENGINEER

Houston, TX | peytoncornelison@gmail.com | (409) 659-5141 | linkedin.com/in/peyton-cornelison | github.com/P-Corn

WORK EXPERIENCE

Spiegel Design Group (SDG)

Front-End Engineer

Jun 2023 - Jul 2026

Remote

- Shipped customer-facing web features for Netflix Shop, Barnes & Noble, Peet's Coffee, Indigo, and Rare Beauty across projects using React, TypeScript, JavaScript, Liquid, and Sanity.
- Owned delivery end to end, from clarifying requirements and estimating effort through implementation, cross-browser and device testing, production deployment, and post-release verification.
- Refactored Indigo's inventory and fulfillment system around a GraphQL API, connecting product availability, store selection, pickup, split fulfillment, and cart behavior across 135+ stores.
- Built storefront features for Barnes & Noble's 14M+ product catalog using React, TypeScript, and Sanity, including gift card pages, blog discovery, audiobook signup, and CMS-managed mobile navigation.
- Built a B2B project workflow for Rugs USA that connects third-party wishlist data with Shopify carts, supporting named lists, quantity management, bulk add-to-cart, and printable summaries.

Inception Fertility

Front-End Developer

Feb 2022 - Jun 2023

Houston, TX

- Developed full-stack features for an internal clinic operations platform used by staff across multiple fertility clinics, with a Vue frontend, Node.js/Express APIs, and a SQL database.
- Owned a KPI reporting application from requirements through deployment, consolidating clinic-level data into purpose-built reports for internal stakeholders.
- Designed and delivered an access-controlled REST API for an external partner, working with their team to define requirements, expose only the required data, and validate the integration.
- Delivered clinic features across the stack by designing relational tables and SQL queries, implementing Node.js/Express endpoints, and connecting them to Vue interfaces.

EDUCATION

Lone Star College

A.A.S. in Mobile/Web Application Development

Dec 2021

Houston, TX

SKILLS

Frontend: JavaScript, TypeScript, React, Vue.js, HTML, CSS/SCSS, Web Accessibility
